**BOS National Audit of mini-screws /
temporary anchorage devices (TADs)**

ARE YOU USING MINI-SCREWS OR TADs?

YES? Then you should **REGISTER NOW** with the BOS National Audit Project

The BOS is coordinating a national audit of UK usage of mini-screws / temporary anchorage devices. Data collection is due to commence on 1st June 2008. Participation will allow you to:

- Have your experiences with TADs included in the National Audit
- Compare yourself with the National Averages and Audit Standards
- Comply with NICE Audit recommendations

When you register you will be sent your unique registration number and information on how to access the BOS TAD Audit Project Website. On the website you will be able to enter your audit data on-line, or download and print out the data collection sheet to fill in and return to BOS for inclusion in the Audit Project

Don't miss out – register today!!!
