

Your Jaw Surgery Check list

Following your consultation, additional information can be obtained from
YourJawSurgery.com website.

This is an online resource consisting of a ***patient journey, patient stories, animations of surgery and other resources***, which may help you in deciding about, or going through jaw surgery.

Your team will suggest which parts of the resource will further help to explain the surgery that we are proposing;

Animations of surgery

- Top jaw surgery
- Lower jaw surgery
- Double jaw surgery
- Other types of surgery

Other resources

- Toothbrushing after surgery
- Diet advice after surgery
- Follow up, exercise and working after surgery

The information in the resource provides a general overview of the jaw surgery process. For information, specific to your treatment, Please contact your team if you have any further questions.
